To Whom It May Concern:

The Peace Education Program (PEP) was introduced to Cancer Support Community Valley/Ventura/Santa Barbara through volunteers of the Prem Rawat Foundation. These volunteers were a cancer survivor and friend of another cancer patient, both of whom had participated in programs at the Cancer Support Community and felt the Peace Education Program to be a very nice addition as a workshop at our Westlake Village, California location.

PEP is a media based workshop designed to help a person be aware of their own inner resources and explore self- discovery. The workshops focus on topics such as hope, choice, appreciation, peace and dignity. From the comments we have received from the attendees of these workshops, it is clear that the PEP workshops are enjoyable and would be beneficial to anyone interested.

Sincerely,

Jody Tompkins, MA, LMFT
Vice President of Programs
Cancer Support Community Valley/Ventura/Santa Barbara
